

PANYNJ Truck Replacement (TRP)

The Port Authority of New York and New Jersey is committed to environmental progress with its Truck Replacement Program. The program provides grants to help drayage truck owners upgrade to newer, cleaner vehicles. Eligible applicants can receive up to \$25,000 per truck (max two trucks per applicant) to scrap and replace their Class 8 diesel trucks (1999-2009 model year engine) for a truck equipped with a 2015 or newer model year engine. Applicants must agree to service the port at least 150 times per year for five years, as well as meet specific insurance, registration, and compliance requirements.

For more information about eligibility requirements and how to apply visit:
